Job Roles

Proactively engaging with assigned students by implementing intrusive advising strategies on a daily, weekly, and monthly basis through phone calls, text messages, emails, and setting up appointments to see how each student is progressing through their program.

Following up with students to monitor their success in their chosen program, implementing academic intervention based on the student's progress.

Helping students connect to their instructors for various concerns or in need of additional support.

Creating individualized personal academic success plan with specific strategies to help them with their coursework, Answering general academic concerns to help them reach graduation.

Monitor and fill out students' weekly progress and grade reports. Reach out with appropriate communication based on their academic progress.

Identifying at-risk students. Provide intervention plans, helpful resources, and academic support to prevent them from failure.

Initiate Academic Dismissal Policy for students who qualify. Intense outreach of warnings, a timeline of academic expectations with deadlines, follow up to see removed from Academic Dismissal. Release students from programs if they fail to meet their new individual deadlines and academic expectations. Grant rights to return to their program within a set amount of days.

Recommend students for grants, scholarships, honors programs, and award recognition.

Contribute to various committees and lead team training meetings and sessions.

Support and assist in other student matters within other departments.
