Summary

I accelerate CEOs, Key Executives and their organizations!

I have launched and co-launched numerous organizations that have moved from conceptual stages to generating millions of dollars in revenues. With this type of experience in mind, my thesis is every leader and every business hits a wall at some point. I have personally experienced it and witnessed it while walking with some of the highest achievers on the planet. Hitting a wall is not the problem. The problem is usually associated with not being adequately prepared to get past personal and organizational barriers.

My services are your solution! I am equipped to provide you with practical tools to break through your wall and take your productivity to the next level. My high-impact experience working for numerous Fortune 100 companies (Kraft Foods, RJ Reynolds, 3M) along with functioning as an Executive, Entrepreneur and Fundraising Strategist have equipped me with the tools needed to support Fortune 500 Executives, Professional Athletes, businesses and organizations and many others with achieving desired goals.

My features and appearances include Fortune 500 companies, private enterprises, TEDx, Harvard University, Emory University, Georgia Tech, The University of Memphis, Pepperdine University and more.

Please reach out to me directly if there is anything I can do to support you with meeting your personal, team or organizational needs:
