Maurice C. Barnes is a Senior Database Administrator with the United States Property and Fiscal Office for the state of Alabama, where he has devoted 80 percent of his time improving department business practices and daily operating procedures. He has more than 20 years of Information Technology experience in both civilian and military sectors. His recent activities include establishing and improving the Mission Command Configuration Center (MCCC) of the Mobilization Force Generation Installation (MFGI) of the US Army Forces Command (FORSCOM).

Maurice has been a primary asset to the United States government in implementing the conversion from Hewlett Packard (HP) and Dell legacy hardware systems to virtual and cloud base infrastructures in an effort to improve productivity and efficiency while reducing cost.

Maurice is a frequent volunteer at multiple non-profit organization throughout Autauga and Montgomery Counties in an effort to mentor young teenagers and adults.
